

# LEARNING VILLAGE

## WHAT IS LEARNING VILLAGE?

- The Village is an English as an Additional Language (EAL) programme designed for learners aged 6 to 14 years.
- It's an image-based programme with three learning journeys: Survival Language: for learners who are new-to-English, covering vocabulary and language structures. Phonics: teaching reading through sounds. This journey also teaches high frequency words and curriculum content: introducing the vocabulary needed for the most requested areas of the school curriculum.

## HOW CAN LEARNING VILLAGE HELP YOUR CHILD?

- Boosts learner progress -extensive studies support the science behind Learning Village and demonstrate children making rapid progress in a small number of months
- Builds learner confidence
- Increases learners' capacity to support themselves
- Simulates learning the language to make friends

## HOW DOES IT WORK?

- Learning village provides an award winning learner - directed cycle of learning .
- It allows all learners to have the tools to learn effectively.
- The key to successful learning is to learn little and often.
- Routines and structure are also important, so having an achievable and manageable routine in place is a must for continued and effective learning.
- To get the best benefit from the Learning Village, we recommend that learners spend time every day learning, revising and consolidating.
